CP6

Security Pan / Tilt Camera 2K

CP6

Security Pan / Tilt Camera 2K

Products Description

The security Pan/Tilt Camera-CP6, is a high-performance home surveillance Camera that integrates 360° visual coverage with 2K resolution. It is also fetured with full-duplex two-way audio, smart-motion detection/tracking, sound and light alarm functions. The product is mostly used for indoor scenarios monitoring such as homes, shops, offices and classrooms, etc. The users can access the video via wireless or wired connection to the router.

Selling Points

360° All-round Vision

High speed pan/tilt design enables flexible rotation in all directions. CP6 covers 360° horizontally and 155° vertically (90° up, 65° down) which leaves zero blind zones at all.

Sound and Light Alarm

When intrusion is detected during the alert period, a sound and white flashing light alarm will be triggered to warn illegal intruders. At the same time, the alarm message will be sent to your mobile.

Infrared Night Vision

Equipped with high sensitive image sensors, CP6 shows the color of delicate image even in low-light condition. The four built-in 850 nm infrared lights are producing clearer night vision and increasing the distance of night vision up to $12\ m(40ft)$.

Auto Targeting and Tracking

Based on the Al machine vision algorithms, the "Smart Tracking" can automatically track the movements and store the video.

Customizable Voice Alerts

You can customize 3 personalized audio message for shop greeting or theft warning

02 Security Pan/Tilt Camera 2K

Selling Points

Patrol with one click

You can set the pan/tilt partol locations via the TDSEE App, and the camera rotates cyclically according to the preset location to patrol the area.

MicroSD Card / Cloud Storage

The video can be stored in local Micro SD card and cloud storage. Even a vandal accident happens to your devices, you can still retrieve videos based on cloud recording.

Two-way Audio

Real-time full-duplex two-way audio communication function enables you to chat with your family anytime and anywhere, bringing the most affectionate greetings to your beloved.

S-motion Detection

Based on Al deep learning algorithms, CP6 can detect human shape and other motion. It recognizes the movement accurately and captures suspicious status automatically, and the resulting alarms will be sent to your mobile in real time.

Privacy Shutter

The camera rotates downward when the master arrives at home and taps on the APP.
