

4K PTZ Camera

Professional shooting quality

Advanced camera specifications allow to stream video in 4K resolution at 60 fps, providing unsurpassed image quality and maximum realism.

Convenient connection

The 4K PTZ Camera is equipped with multiple ports (Ethernet, USB, HDMI, 3G-SDI) for the multiple choice of the camera's connection to the wide range of modern devices.

Smooth pan-tilt-zoom function

Thanks to various rotation options, the 4K PTZ Camera can shoot within a $\pm 170^\circ$ of horizontal range.

Power over Ethernet

Thanks to the support of PoE, you can place the camera anywhere, such as on the wall, with no need for direct access to a power outlet.
